

NURSE ASSOCIATION CHANGES ITS NAME

The West Tennessee Nurses' association at a meeting held Thursday adopted a resolution changing its name to the Registered Nurses' association, District 1 of the state of Tennessee. Previously the state organization was organized into three divisions, Middle and West Tennessee divisions. At a recent meeting of the state association it was decided to arrange for four divisions of the state, the headquarters of each division being in one of the four large cities, Memphis, Nashville, Knoxville and Chattanooga.

The local association will meet in future once a month except the three summer months, June, July and August, instead of meeting quarterly as formerly.

Officers elected at the meeting Thursday were Miss Baxter, president; Miss Alexander, first vice-president; Miss Joe Stewart, second vice-president; Miss Rebecca Burgett, secretary, and Miss Dixie Sample and Miss Mary Drake, directors for three years.

PURYEAR ONLY OFFICER TO RETURN TO FIGHT

Lieut. George Puryear, of Memphis, brother of Judge D. B. Puryear, is the only one of the three officers who escaped from the German prison camp at Villingen to return to active duty. Lieut. Isaacson, who was captured with the transport President Lincoln was torpedoed, and Lieut. Willis, an aviator who was taken in the German lines, have returned to the United States. Judge Puryear has received one or two cards from his brother, and has written his mother at Gallatin without narrating the particulars of his escape. Lieut. Willis has been quoted as saying that none of the medical officers attempted to get away, as they were allowed exceptional liberties and were on their honor not to escape although they gave much assistance to the men who made their way out of the camp. As soon as Lieut. Puryear could get out of Switzerland he made his way to headquarters, where he put in the remaining few days of the war in combat.

DENIES RUMORS FLU IS EPIDEMIC HERE

Persistent rumors that influenza is still epidemic in Memphis are denied by city health authorities. Although it is admitted there are a few isolated cases and that a few cases are reported every few days, it is believed the disease has spent itself here and physicians do not look for recurrence of influenza in epidemic form.

Health authorities, however, urge Memphians to continue, as far as possible, to observe all precautions advised when the malady began to spread as a means to prevent colds, grippe, bronchitis, meningitis, pneumonia and other pneumonia and kindred diseases, all of which are considered contagious.

WANTS FRIENDS FINED FOR "HOODOOING" HER

Rebecca Walls, negro, 260 Camilla street, who declared she was being "hoodooed" by two of her friends and compelled to cut strange capers, hailed her alleged estate antagonists into Justice Fred Brown's court Thursday on charges of breach of peace.

"How did they hoodoo you?" asked the magistrate.

"Well, judge, dey staze a little wid their hands, do a little honhee-couche and spit fire wid their eyes—and I jes' has ter do what dey says. I had to stan' on mah head, and after a while dey makes me hop on one foot for 10 minutes."

Judge Brown frowned upon the defendants. It was beginning to look bad for them when someone came in who knew Rebecca. Judge Brown caught a wink from the new arrival with a peculiar twist of the finger around the temple.

"I'll have to dismiss this case," he said abruptly.

To Avoid and Relieve Influenza BY DR. FRANKLIN DUANE

Many people have been frightened by what they have read or heard of influenza. The sure way to get it is to get right about your business and forget it. The disease is spread principally by contact through sneezing, coughing or spitting. Many health authorities have which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose, giving you should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chills, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some mild and nonirritating physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Amuric Tablets every four hours, followed by drinking at least a glass or two of hot water. Amuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and keep the kidneys flush out the poison.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, it gives strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this danger, fortify the patient's strength first; that he keep in bed at least two days. Probably nothing will aid such a patient more than an iron-tonic tablet called "Frontin" or that well-known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations.

Unconced effort will be made in every city and town of the country by the 12,000 express employees to emphasize the importance of preventing any possible congestion of transportation facilities during these critical times. Although express facilities are now adequate, no much equipment is now used for strictly war purposes that all gift shipments for long distance travel should be delivered to the express company not later than December 5 and for short hauls not later than December 10.
